Hello!

My signature style is all about creating soft, radiant, and flawless looks with just the right touch of glam. I'm inspired by classic elegance, bold confidence, and the intricate beauty of South Asian bridal traditions. I believe makeup artistry and hair creation should be a luxurious experience! I take a considerate and intentional approach with every aspect of your glam - not just the look itself but ensuring its perfect for your attire, jewelry, is cohesive with your overall style venue and photography. It's never about trends or cookie-cutter makeup - it's about embracing your features, your culture, and your personality.

To me, makeup is also about connection. It's about taking the time to listen to your vision, your concerns, and your dreams for your big day. I make it a priority to create a relaxed, fun, and empowering experience where you feel completely seen and understood. When you sit in my chair, my goal isn't just to make you look incredible it's to make you feel incredible. Let's collaborate together and find a look that allows you to stand out effortlessly and leaves you glowing inside and out.

★★★★★ Mar 17, 2022

I absolutely LOVED Arianna. I'm not kidding when I say she kept me sane my wedding morning. It started off rough as things went wrong as they do in all weddings but Arianna arrived exactly on time and was super patient with me as I wasn't ready to go. She was so calm and kind and that definitely helped me de-stress and get my makeup done. Her skills are fantastic and she perfectly hid my sleepless eyes and make me feel like a Queen. She gave me a touch-up kit that I didn't even NEED, that's how good her makeup was. My lipstick did not budge and I've tried all the mattes before.

She went above and beyond to make sure I liked my makeup, often tweaking things if I asked, I'm so grateful she made me feel comfortable enough to ask her for these changes as I definitely would have been intimidated otherwise. I was nervous about not doing a makeup trial as I was flying in for a destination wedding and as a South Asian was worried my makeup would look yellow or ashy or my jewelry wouldn't be set properly but Arianna is truly an expert! So much chaos was happening while she did my makeup, but she got her work done in time and even helped me with other things like my fixing my jewelry or helping me take off my henna. I truly loved my experience with her and hope everyone South Asian bride in Washington works with her for their special day!

Three years ago, I found "the one". Then, I said "yes to the dress". However, it wasn't until the search for my hair and makeup artist began, that I realized I absolutely could not compromise on quality when making that decision. Arianna's work speaks for itself, but the experience of working with her is what is truly priceless. I'm so glad to have had a trial with her because it allowed her to understand my vision and elevate it to the next level with her expertise. Her calm demeanor was what kept me centered as I started my day, and when she unveiled my look, is when I had to control my tears. She brought what I had always imagined to life, and I'm forever grateful for that!

FAQ'S

IS A TRIAL REQUIRED?

No. You are not required to schedule a trial. However, I highly recommend them in order for the you to try on your desired wedding day look and any adjustments be made pre-wedding day. Trials are included in bridal packages, and you may remove a trial from your package.

HOW EARLY SHOULD I BOOK YOU?

As early as possible! Seriously, it's never too early! People tend to book me sometimes 1-2 years out and I get booked pretty quickly. Your day still may be available though as soon as a few months out so shoot us an email and let's see if we'd make a good match for your big day! If the timing is right, sometimes I am able to do two weddings in the same day!

DO YOU PROVIDE SERVICES FOR NON-BRIDAL EVENTS?

Absolutely! I provide makeup and hair styling for pre-wedding events, including engagements, Sangeet, Mehndi, and receptions, as well as other special occasions.

HAVE ANY QUESTIONS? CONTACT US!

WHAT PRODUCTS DO YOU USE?

I use different products, depending on the situation or event. For clients who will be interacting both in person and on camera, I use specialty foundations and powders that exactly match skin tone and provide a flawless finish that looks impeccable, both in person and on camera. I use high-definition foundation, powders, and contouring products for people appearing only on camera.

HOW FAR IN ADVANCE SHOULD I BOOK?

My bridal makeup services require advance booking, and I recommend that you contact me between six to twelve months in advance for these services. Although the makeup industry can accommodate last-minute needs - and I have worked within two weeks of booking at times - a month or two out for booking non-bridal services is not the norm.

WILL MY MAKEUP LAST ALL NIGHT?

Absolutely. A true professional makeup application will last the full duration of your event. Not only are the eyes and skin prepared with the proper skin care and priming products, but you will be set and finished with professional powders and sprays that seal in and help fix the makeup in place. All the products in between the prepping and sealing are chosen for their longevity and high performance in all tear/sweat and weather conditions.
